

The Association for Corporate Health Risk Management Business Coalition Application

The Association for Corporate Health Risk Management (ACHRM) is a unique employer community where employers collaborate with their peers, learn new methods and techniques to reduce their company's health care costs, implement or improve quality healthcare programs, and improve employee well-being and productivity.

ACHRM offers employers virtual opportunities to engage in cutting edge projects and strategic initiatives to develop solutions for containing healthcare costs and better managing their health risk. Periodically ACHRM shall offer educational programs including, roundtables, webinars, and other events.

As a former CFO, COO, and Corporate Risk Manager, I understand the challenges of developing and maintaining a budget while finding more effective strategies to reduce healthcare costs and enhance employee benefits. The Association for Corporate Health Risk Management offers a venue to develop solutions for your health risk management challenges by launching pilots, publishing case studies and articles, introducing best in class solution providers, and creating a collaborative environment with your peers. Currently, we have about 30 committees and strategic initiatives executing our Nine-Pronged 2024-25 Strategic Plan (see below).

As an educator and facilitator, ACHRM's the only national association promoting the benefits of engaging an independent non-insurance carrier third party administrator (TPA), pharmacy benefit managers (PBM), and other resources. Not only does rethinking your firm's self-funding methodology benefit your bottom line, employees, but also medical professionals.

ACHRM interviews hundreds of vendors annually, but only selects a few forward-thinking, innovative, disruptive solution providers to become Sponsor Partners. Our community offers a dynamic opportunity for our Sponsor Partners to design, participate unique cutting-edge pilots, case studies, demonstration projects among other strategic initiatives.

The consultants in ACHRM's community, including PBM consultants, health insurance broker/consultants, among other advisors benefit from participating in our strategic initiatives, and joining our educational panels.

As a collaborative community, ACHRM also appreciates the opportunity to work with Business Coalitions across the US. ACHRM's Coalition membership extends to all employers and the Coalition team members. Our current coalition members enjoy the opportunity to collaborate with other likeminded employers and national thought leaders.

ACHRM's 2024-2025 NINE-PRONGED STRATEGIC PLAN

- 1. Expand Membership (Employers, Coalitions, Medical Professionals, Consultants, Best-In-Class Sponsor Partners)**
- 2. Advance Virtual Educational Programs for Employers, Coalitions, Medical Professionals, Consultants Leveraging Strategic Initiatives and *ACHRM Self Insurance Educational Tool***
- 3. Identify Best-In-Class Digital Care Single Point Solutions (Women's Care, Oncology) AND Introduce Digital Care 2.0 Platform Leveraging Employer Committees**
- 4. Assist our employer community with fiduciary responsibilities to comply with 2021 Consolidated Appropriations Act (CAA)**
- 5. Problem: Consolidating Hospitals (reducing quality, increasing costs, withdrawing from rural markets). Multiple layers between physician and patient (employee, employer) increasing costs and administrative inefficiencies.
Solution: Launch and Advance Employer – Medical Professional Partnerships in Monopolistic, Rural and Underserved Pilots To Improve Access To High Quality Care At Lower Costs**
- 6. Problem: Exaggerated by the pandemic, employers have realized higher volume and greater cost cancer claims even to the level of tripping their stoploss protection. In addition, most national and statewide cancer coalitions have no employer representation.
Solution: Develop Employer – DPC – Oncologist Live Case Studies to Illustrate the Benefits of Preventable Strategies/Claim Management, Direct Contracting, Employee Engagement, Data Analytics, and Digital Solutions**
- 7. Problem: Weight Loss Drug Pandemonium Causing Significant Increase in Employer Drug Spend
Solution: Launch Pilot to Develop and Test Prescription Lead-In (Authorization) and Exit Strategies Integrating Behavioral / Weight Management Programs, Cost Management, Employee Qualifications, Side Effects, Surgery vs. Drug Regime, Mental Health and Other Policy Issues**
- 8. Migraine: Build Employer awareness and Introduce more effective treatment strategies**
- 9. Artificial Intelligence and Health Care Cost Containment?**
